Activity scope

This document relates to student participation in track running events as a curriculum activity.

The requirements of this risk assessment apply to running events, including sprints, relays, middle/long distance, walks, hurdles and cross-country events.

Risk level

The actual risk level will vary according to the specific circumstances of the activity and these **must** be considered when assessing the inherent risk level and planning the activity. As a starting point, ask the following questions:

- Which students will be involved?
- Where will the students be?
- What will the students be doing?
- Who will be leading the activity?
- What will the students be using?

Inherent risk level		Action required / approval
<input type="checkbox"/>	Medium	Some chance of an incident and injury requiring first aid <input checked="" type="checkbox"/> Record controls in planning documents and/or complete this <i>Curriculum Activity Risk Assessment</i> . <input checked="" type="checkbox"/> Consider obtaining parental permission.

Teachers/leaders:

Activity description:

Start date:

Finish date:

Class groups:

Supervision ratio (approx.):

Queensland Government

Date Modified: 13 August 2010

Listed below are the minimum recommendations for this type of activity. For any items ticked 'No', provide further information regarding the additional or alternate controls to be implemented for the safe conduct of the activity.

Minimum supervision

Adequate adult supervision is to be provided. In determining what is adequate, consider the number of students, their individual needs, and the nature of the activity. If an adult other than a registered teacher is engaged for instruction, a teacher should be present to take overall responsibility. [Blue Card](#) requirements **must** be adhered to.

- ☐ Registered teacher with minimum qualifications as outlined below
OR
☐ An adult with minimum qualifications as outlined below, in the presence of a registered teacher

Further information:

Minimum qualifications

The qualifications listed in this section are minimums for each type of situation. Leaders are encouraged to seek training to raise their qualification level above the minimum listed.

- ☐ Current first aid qualifications including Cardio Pulmonary Resuscitation (CPR) or ready access to first aid facilities, including qualified personnel.
- ☐ [Blue Card](#) requirements met

Medium — Some chance of an incident and injury requiring first aid

For a registered teacher:

- ☐ Level One Accreditation from the [Australian Track and Field Coaches Association](#)
OR
☐ Competence (demonstrated ability/experience to undertake the activity) in the teaching of running events

A teacher could demonstrate their competency through their:

- ☐ knowledge of the activity and the associated hazards and risks
☐ experience (i.e. previous involvement) in undertaking the activity
☐ demonstrated ability and/or expertise to undertake the activity
☐ possession of qualifications related to the activity.

For a leader other than a registered teacher:

- ☐ Another adult with Level One Accreditation from the [Australian Track and Field Coaches Association](#)

Hazards and suggested control measures

All persons engaging in this activity should:

- identify the hazards, including any additional hazards not mentioned here
- assess their significance
- manage the potential risks.

Listed below are indicative hazards/risks and suggested control measures. They are by no means exhaustive lists. After checking these, add details of any other identified hazards/risks and additional controls you intend to implement.

Biological material <ul style="list-style-type: none"> Body fluids (e.g. blood, saliva, sweat) 	<ul style="list-style-type: none"> Comply with Infection Control Guideline. Students with open cuts and abrasions are to be removed from the activity and treated immediately. If bleeding cannot be controlled completely, the participant should not be allowed to return to the activity. All clothing, equipment and surfaces contaminated by blood should be treated as potentially infectious.
